

**PRAYER for JUNE 2010**

***God's heart can be felt beating at the heart of the universe pulsing life through all creation. This heart, like a mother's heart, is sensitive to the needs and desires of all that has been created. This heart wishes good for all creation and, like a mother's heart, is always ready to understand, to listen, to comfort and forgive.***

***May we follow the example of Mary who treasured all things in her heart and pondered on the words and ways of God. Her heart was the heart most closely conformed to the heart of God. As we ponder the Word of God daily may we try to be life-giving wherever we find ourselves and have the attitudes of Mary in our dealings with others.***
