

Prayer for March 2010

*What is Spring? —
Growth in everything —
Flesh and fleece, fur and feather,
Grass and greenworld all together.
Gerard Manley Hopkins
(1844—1889)*

Lord, as we enter another springtime may we follow the example of nature and take steps to ensure that we, too, grow in the many different areas of our lives.

Help us to hear you calling us forth from our wintry sleep.

Help us to rouse ourselves, take risks in our lives and face the future with hope and confidence.

May our efforts at personal growth inspire others to grow so that all may have life in its fullness.
