

Light Out Of Darkness *by Mathilde Santing*

Love glows like a candle in the window
and when it glows it brings light out of darkness
giving you a rainbow
And hope shines in the shadows
that may hide you
and in the night it brings
light out of darkness
and the light will guide you

Men without hope or love
who haven't really learned how to dream
they don't really see
Those men they're not like me

For I have love and I have hope
and I have dreams
they're all I need to bring
light out of darkness
brighter than the sunbeams

Men without hope or love
who haven't really learned how to dream
they don't really see
oh, you know, those men they're not like me

For I have love and I have hope
and I have dreams
they're all I need to bring
light out of darkness
brighter than the sunbeams

“Create
in me a
clean heart,
O **God,**
and put a
new **and right**
spirit
within me.”
Psalm 51:10
