

From Ellen:

Following COP 26 and the commitment made by the RSHM Institute what can we, individually and as communities, do in response?

SUGGESTION:

Take one of the Laudato Si' Goals - LSGs Measuring Integral Ecology in the spirit of Laudato Si'

GOAL 1:

Response to the Cry of the Earth (greater use of clean renewable energy and reducing fossil fuels in order to achieve carbon neutrality, efforts to protect and promote biodiversity, guaranteeing access to clean water for all, etc.)

REFLECT:

on our use of water/electricity etc. and inform ourselves about the worldwide problems re access to water in poorer countries etc.

LINK WITH OUR INSTITUTE COMMITMENT:

"to take bold concrete actions corporately and individually, in the spirit of Laudato Si', to address the multiple crisis afflicting our common home."
